

A colossal CONSERVATION EXPERIENCE

Name: _____

INGREDIENTS

Pup's Saliva

Dish Soap

Salt

Rubbing Alcohol

Toothpick

Clear Dish

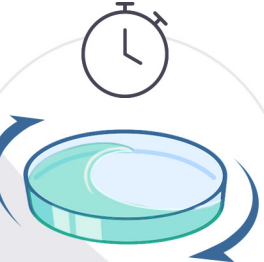

INSTRUCTIONS FOR EXTRACTING THE PUP DROOL

- 

Gently collect the drool from the dog's lips (but you need to have a drooly dog!)
- 

Put the drool in a clear dish.
- 

Add an equal amount of dish soap to the drool.
- 

Add a pinch of salt.
- 

Gently swirl to mix and let sit for a minute.
- 

Gently pour rubbing alcohol along the side of dish.
- 

Watch the white, stringy strands of DNA forming.
- 

Use a toothpick to lift the sticky strands of DNA.
